Early Human Development 54 (1999) 299–301

**Early Human
Development**

Subject index

Volume 54 (1999)

Active sleep: Supine; Prone; Quiet sleep; Heart period variability **54, 197**

Alanine aminotransferase: Aspartate aminotransferase; Glutathione S-transferase Alpha 1-1; Umbilical cord **54, 129**

Anthropometry: Skinfold thickness; Ultrasound; Upper arm areas **54, 117**

Aspartate aminotransferase: Alanine aminotransferase; Glutathione S-transferase Alpha 1-1; Umbilical cord **54, 129**

Ataxia: Ca^{2+} binding proteins; Cerebellar compartmentalization; Human; Immunohistochemistry; Intracellular Ca^{2+} receptor **54, 103**

Behavioral state: Cardiac orienting reflex; Low-intensity sound; Cognitive processing; Human fetuses; HR deceleratory response **54, 39**

Bottle: Feeding devices; Cup; Traditional feeding device ('paladai'); India; Neonates **54, 29**

Bronchopulmonary dysplasia: Very low birth weight infants; Frequency; Risk factors **54, 245**

Ca^{2+} binding proteins: Ataxia; Cerebellar compartmentalization; Human; Immunohistochemistry; Intracellular Ca^{2+} receptor **54, 103**

Cardiac orienting reflex: Low-intensity sound; Cognitive processing; Behavioral state; Human fetuses; HR deceleratory response **54, 39**

Cardiopulmonary transition: Prostaglandin I_2 ; Nitric oxide; Vasodilator synthesis; Lung development **54, 271**

Cerebellar compartmentalization: Ataxia; Ca^{2+} binding proteins; Human; Immunohistochemistry; Intracellular Ca^{2+} receptor **54, 103**

Cognitive processing: Cardiac orienting reflex; Low-intensity sound; Behavioral state; Human fetuses; HR deceleratory response **54, 39**

Colic: Fetal movements; Infant crying; Temperament **54, 55**

Congenital duodenal obstruction: Human fetus; Real-time ultrasound; Rhythmic changes; Stomach movement **54, 1**

Cup: Feeding devices; Bottle; Traditional feeding device ('paladai'); India; Neonates **54, 29**

Cytomegalovirus: Pulmonary surfactant; Fetal lung maturity indices **54, 137**

Dimension: Nonlinear dynamics; Entropy; Gestational age; Fetal magnetocardiography **54, 259**

Doppler echocardiography: Left ventricular function; Premature infants **54, 169**

Energy expenditure: Indirect calorimetry; Premature infants; Small-for-gestational-age infants; Fecal fat excretion; Weight gain **54, 223**

Entropy: Nonlinear dynamics; Dimension; Gestational age; Fetal magnetocardiography **54, 259**

Environmental constraints: Spontaneous arm movements; Newborn **54, 15**

- Fecal fat excretion:** Indirect calorimetry; Premature infants; Small-for-gestational-age infants; Energy expenditure; Weight gain **54**, 223
- Feeding devices:** Bottle; Cup; Traditional feeding device ('paladai'); India; Neonates **54**, 29
- Fetal electrocardiogram:** Fetal magnetocardiogram; Fetal monitoring; Fetal rhythm **54**, 235
- Fetal lung maturity indices:** Cytomegalovirus; Pulmonary surfactant **54**, 137
- Fetal magnetocardiogram:** Fetal electrocardiogram; Fetal monitoring; Fetal rhythm **54**, 235
- Fetal magnetocardiography:** Nonlinear dynamics; Entropy; Dimension; Gestational age **54**, 259
- Fetal maturity:** Gestational age; Neurological criteria **54**, 145
- Fetal monitoring:** Fetal magnetocardiogram; Fetal electrocardiogram; Fetal rhythm **54**, 235
- Fetal movements:** Colic; Infant crying; Temperament **54**, 55
- Fetal rhythm:** Fetal magnetocardiogram; Fetal electrocardiogram; Fetal monitoring **54**, 235
- Fontanelles:** Skull anatomy and physiology; Gestational age; Newborn infant **54**, 207
- Frequency:** Bronchopulmonary dysplasia; Very low birth weight infants; Risk factors **54**, 245
- Gestational age:** Fetal maturity; Neurological criteria **54**, 145
- Gestational age:** Fontanelles; Skull anatomy and physiology; Newborn infant **54**, 207
- Gestational age:** Nonlinear dynamics; Entropy; Dimension; Fetal magnetocardiography **54**, 259
- Glutathione S-transferase Alpha 1-1:** Alanine aminotransferase; Aspartate aminotransferase; Umbilical cord **54**, 129
- Heart period variability:** Supine; Prone; Quiet sleep; Active sleep **54**, 197
- HR deceleratory response:** Cardiac orienting reflex; Low-intensity sound; Cognitive processing; Behavioral state; Human fetuses **54**, 39
- Human:** Ataxia; Ca^{2+} binding proteins; Cerebellar compartmentalization; Immunohistochemistry; Intracellular Ca^{2+} receptor **54**, 103
- Human fetus:** Congenital duodenal obstruction; Real-time ultrasound; Rhythmic changes; Stomach movement **54**, 1
- Human fetuses:** Cardiac orienting reflex; Low-intensity sound; Cognitive processing; Behavioral state; HR deceleratory response **54**, 39
- Immunohistochemistry:** Ataxia; Ca^{2+} binding proteins; Cerebellar compartmentalization; Human; Intracellular Ca^{2+} receptor **54**, 103
- India:** Feeding devices; Bottle; Cup; Traditional feeding device ('paladai'); Neonates **54**, 29
- Indirect calorimetry:** Premature infants; Small-for-gestational-age infants; Energy expenditure; Fecal fat excretion; Weight gain **54**, 223
- Infant crying:** Colic; Fetal movements; Temperament **54**, 55
- Intracellular Ca^{2+} receptor:** Ataxia; Ca^{2+} binding proteins; Cerebellar compartmentalization; Human; Immunohistochemistry **54**, 103
- Left ventricular function:** Doppler echocardiography; Premature infants **54**, 169
- Low-intensity sound:** Cardiac orienting reflex; Cognitive processing; Behavioral state; Human fetuses; HR deceleratory response **54**, 39
- Lung development:** Prostaglandin I_2 ; Nitric oxide; Cardiopulmonary transition; Vasodilator synthesis **54**, 271
- Mother's milk:** Preterm infants; Zinc status **54**, 181
- Neonates:** Feeding devices; Bottle; Cup; Traditional feeding device ('paladai'); India **54**, 29
- Neurological criteria:** Gestational age; Fetal maturity **54**, 145
- Newborn:** Spontaneous arm movements; Environmental constraints **54**, 15
- Newborn infant:** Fontanelles; Skull anatomy and physiology; Gestational age **54**, 207

- Nitric oxide:** Prostaglandin I₂; Cardiopulmonary transition; Vasodilator synthesis; Lung development 54, 271
- Nonlinear dynamics:** Entropy; Dimension; Gestational age; Fetal magnetocardiography 54, 259
- Phospholipid:** Preterm infants; Profile; Surfactants 54, 157
- Premature infants:** Doppler echocardiography; Left ventricular function 54, 169
- Premature infants:** Indirect calorimetry; Small-for-gestational-age infants; Energy expenditure; Fecal fat excretion; Weight gain 54, 223
- Preterm infants:** Mother's milk; Zinc status 54, 181
- Preterm infants:** Phospholipid; Profile; Surfactants 54, 157
- Preterm infants:** Visual evoked potential 54, 215
- Profile:** Phospholipid; Preterm infants; Surfactants 54, 157
- Prone:** Supine; Quiet sleep; Active sleep; Heart period variability 54, 197
- Prostaglandin I₂:** Nitric oxide; Cardiopulmonary transition; Vasodilator synthesis; Lung development 54, 271
- Pulmonary surfactant:** Cytomegalovirus; Fetal lung maturity indices 54, 137
- Quiet sleep:** Supine; Prone; Active sleep; Heart period variability 54, 197
- Real-time ultrasound:** Congenital duodenal obstruction; Human fetus; Rhythmic changes; Stomach movement 54, 1
- Rhythmic changes:** Congenital duodenal obstruction; Human fetus; Real-time ultrasound; Stomach movement 54, 1
- Risk factors:** Bronchopulmonary dysplasia; Very low birth weight infants; Frequency 54, 245
- Skinfold thickness:** Anthropometry; Ultrasound; Upper arm areas 54, 117
- Skull anatomy and physiology:** Fontanelles; Gestational age; Newborn infant 54, 207
- Small-for-gestational-age infants:** Indirect calorimetry; Premature infants; Energy expenditure; Fecal fat excretion; Weight gain 54, 223
- Spontaneous arm movements:** Newborn; Environmental constraints 54, 15
- Stomach movement:** Congenital duodenal obstruction; Human fetus; Real-time ultrasound; Rhythmic changes 54, 1
- Supine:** Prone; Quiet sleep; Active sleep; Heart period variability 54, 197
- Surfactants:** Phospholipid; Preterm infants; Profile 54, 157
- Temperament:** Colic; Fetal movements; Infant crying 54, 55
- Traditional feeding device ('paladai'):** Feeding devices; Bottle; Cup; India; Neonates 54, 29
- Ultrasound:** Anthropometry; Skinfold thickness; Upper arm areas 54, 117
- Umbilical cord:** Alanine aminotransferase; Aspartate aminotransferase; Glutathione S-transferase Alpha 1-1 54, 129
- Upper arm areas:** Anthropometry; Skinfold thickness; Ultrasound 54, 117
- Vasodilator synthesis:** Prostaglandin I₂; Nitric oxide; Cardiopulmonary transition; Lung development 54, 271
- Very low birth weight infants:** Bronchopulmonary dysplasia; Frequency; Risk factors 54, 245
- Visual evoked potential:** Preterm infants 54, 215
- Weight gain:** Indirect calorimetry; Premature infants; Small-for-gestational-age infants; Energy expenditure; Fecal fat excretion 54, 223
- Zinc status:** Preterm infants; Mother's milk 54, 181
